

Join in with Zoom by Phone

Anyone who doesn't have a computer, smartphone or other device, can phone in using a standard phone. It is a UK landline number, so at no cost if these calls are part of your package (it is expected that most will have free weekend calls). Then the caller will hear the service but, of course, won't see the people speaking, others in the congregation / words of the hymns etc.

The number is: **0131 460 1196** Then one has to key in the code -

86939887756

The code may change in future weeks, but the phone number should be the same.

If you find this useful, contact your Elder towards the end of the next week to get the new code.
